

Shiftmaker 2024 Training

Level 1 - Foundations

STARTING THE ADVENTURE OF IDENTITY TRANSFORMATION

One world is dying. Another world is being born before our eyes.

Faced with the transformation of today's world and its new challenges, many of us are thinking about the changes that need to be made at the individual, collective and organisational levels. We wish, feel, and have the intuition that we must contribute to the movement but do not always know how to start.

This course is intended for those people who have an interest in (their company's) transformation. It is about guiding them so that they can become "Shift-makers"; so that they can live this transition from the Old World to the New One in their job, whatever it may be. It's not about rejecting the old but about contributing to the new by including the old. It is about acting from where I am in the organisation to initiate an organic transformation: a transformation that spreads from within.

The whole journey includes the individual, the team, and the organisation in an integrative way. In the same way, our pedagogy will set your physical, emotional, mental, and spiritual bodies in motion.

By the end of the course, which takes place over 2 levels, participants will be able to accompany these transformations and contribute to transforming the organisation towards more autonomy and co-responsibility.

The adventure starts with the level 1 where you will experience yourself the "Identity Shift" before you can accompany it later in the company.

WHAT WILL YOU LEARN?

- Acquire a posture that enables you to calmly manage relations in a climate of change;
- Develop your emotional and relational intelligence;
- Increase your self-confidence to stand upright in the chaos inherent in any transformation process;
- Be able to diagnose group processes and guide them to develop a team's style;
- Understand the key stages of cooperation and group management;
- Know yourself better;
- Gain insight into the path to becoming a 21st century company;
- Experience collective intelligence.

MODALITIES

- 4 modules of 2.5 days;
- 1 peer group;
- 3 moments of supervision;
- 1 module of 2 days of valorisation (on a voluntary basis).

A quiet pace allowing for integration and depth.

In each module, participants take on the role of group coaches and experience the posture.

They receive constructive feedback at the end of the module. Group management processes such as feedback, echoes of the previous day, inclusion and metaposition form the basis of our pedagogy.

We continuously shed light on what is going on in the group so that everyone develops their ability to understand a group, to question themselves, and to develop participants' autonomy.
